

Jane Heinze-Fry Bio
2020

Jane Heinze-Fry is the Special Projects Director at Wade Institute for Science Education. With four decades of experience in science and environmental education, she has served as a writer, teacher, and researcher. She has offered professional development institutes to K-12 teachers in hands-on, minds-on inquiry-based science. She has taught a range of life science courses from middle school through undergraduate levels. Jane's writing includes instructional materials to accompany environmental science textbooks and articles about applications of concept mapping. She earned an M.S. in Environmental Education from the University of Michigan and Ph.D. in Science and Environmental Education from Cornell University.
